Other Requirements and Notes:

1. Students may transfer over unlimited credits but a minimum of 30 s.h. must be completed at Rowan University to obtain a Rowan University degree

- 2. Rowan University requires that a student must have a 2.0 overall GPA to graduate.
- 3. Transfer students who have taken the equivalent of BIOL01.100 and BIOL01.101 at another institution should take BIOL01.202 (Biology 3T: Biological Skills and Methods), which will allow them to take BIO 01.204 (Biology 3: Global Ecology). This will complete the introductory sequence and allow them to take most Biology electives.
- 4. All students must receive a grade of C or better in each upper level Biology course that they wish to count toward the Biology major.
- 5. Calculus I, Chemistry I, and Philosophy of Science-WI or Philosophy of Medicine-WI may also serve to fulfill the Math/Science General Education requirement, the Lab Science General Education requirement, and one of the History/Humanities/Languages General Education requirements respectively. Those courses are included as part of the total 42 s.h. of General Education rather than the 62 s.h. of Required Major Courses.
- 6. For more information regarding biology electives, please refer to "Biology Electives toward Biological Sciences Program" on the department website http://www.rowan.edu/colleges/csm/departments/biologicalSci/index.html.
