In support of New Jersey’s commitment to become a national leader in AI and establish an AI Hub, the New Jersey Big Data Alliance, Rutgers University, and Rowan University are proud to host the first of a series of roundtable conferences devoted to bringing New Jersey farmers, researchers, and agriculture stakeholders together to learn about emerging trends in AI for agriculture. In addition to talks, there will be opportunities to network and explore ways to collaborate on advancing the field and using AI to solve the most important agricultural challenges facing New Jersey farmers.

Conference Program

- Keynote speaker
- Lightning talks
- Breakout session
- Networking opportunities

Conference Goals

- Connect stakeholders to map pain points in NJ agriculture
- Create AI-Ag network to foster long-term collaborations
- Create AI-Ag working groups to spearhead new initiatives
- Create AI-Ag consortium to pool resources and drive support.

For additional information please contact: Hieu Nguyen at nguyen@rowan.edu
Conference details, including featured speakers, will be available shortly on <https://njbda.org>.
