

### **Graduate Teaching Fellowships (Application deadline March 1)**

The department of mathematics awards a limited number of teaching fellowships on a competitive basis for students enrolled in the MA in mathematics with the thesis option. Availability of teaching fellowships may vary each year and is contingent on availability of funds. Students interested in applying must be admitted to the MA in mathematics with thesis option full time. In order to maintain the fellowship, it is expected that the graduate fellow:

- Maintain a full time status each semester in good standing. Fellowships require four (or fewer) consecutive terms of full-time enrollment. Failure to maintain this status will result in loss the teaching fellowship.
- Actively work on research projects leading to a Master's thesis under the supervision of a faculty member from the department of mathematics.
- Maintain satisfactory performance in teaching.

To apply:

- You must be admitted to the MA in mathematics with the thesis option.
- Send an email with a cover letter to the graduate coordinator at [bendjilali@rowan.edu](mailto:bendjilali@rowan.edu) expressing your interest in applying for a teaching fellowship.
- The GRE General Test and Subject Test in mathematics are strongly recommended for all applicants.
