Rowan Seminar

This [Rowan Seminar (RS)](#) course is required for all freshman CS and C&I majors. It is intended to help facilitate your transition to Rowan and college-level work with smaller class sizes along with providing you the tools and resources you may need to succeed. The goals of Rowan Seminar courses are to:

- Reinforce necessary collegiate academic skills such as time management, study skills, academic integrity, goal setting, effective class participation, stress management, connecting with the Rowan community, locating resources, etc...
- Emphasize the value of cooperative learning
- Build writing and critical thinking skills applicable to the course
- Develop library research skills specific to course content
