

Hybridge Learning Group is a group of special education professionals dedicated to providing outstanding intervention services to children with special needs including, but not limited to, Autism Spectrum Disorders.

We are currently seeking qualified instructors to provide home-based Applied Behavior Analysis instruction to a student with autism after school. Candidates **must** have experience working with students with autism using ABA methodologies.

The candidate should have strong behavior management skills and the ability to provide instruction using various modalities of ABA. The candidate should also be fun and energetic. For immediate consideration, please email your resume to admin@hybridgelearning.com

Opportunities are available throughout Central and Northern NJ.
